

DESIGN HER FUTURE

INSIGHT:

WOMEN NEED PRIVACY TO ADJUST THEIR CLOTHES IN THE TOILET

MOST WOMEN WOULD LIKE TO USE WESTERN STYLE TOILET'S FOR COMFORT , "BUT CHOOSE TO USE AN INDIAN STYLE TOILET IN PUBLIC SPACES DUE TO HYGIENE ISSUES

WOMEN PREFER AN INDIVIDUAL DUSTBIN IN THE CUBICAL TO DISPOSE SANITARY NAPIK'S

CONCEPT:

BACK TO THE FUTURE

WE HAVE USED SUSTAINABLE MATERIAL LIKE RAMMED EARTH WALL IN OUR TOILET DESIGN

THE AIM OF USING RAMMED EARTH WAS TO USE THE LOCAL MATERIAL FOR THE CONSTRUCTION.THE MANY ADVANTAGES OF BUILDING WITH RAMMED EARTH INCLUDE SUPERIOR THERMAL MASS, TEMPERATURE AND NOISE CONTROL, STRENGTH AND DURABILITY, LOW MAINTENANCE, FIRE PROOFING WHICH ALL COMES UNDER SUSTAINABLE MATERIAL.

THE THICKNESS OF THE WALL REPRESENTS THE FIRMNESS OF THE STRUCTURE WHICH GIVES THE IDEA OF SAFETY FOR THE WOMEN USING THE TOILET.

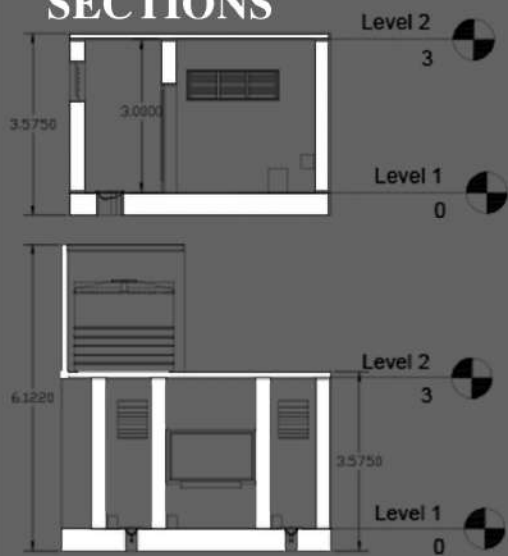

ITEM	QUANTITY	COST
RAMMED EARTH WALL	9.91 CUM	11500 RS
PVC DOOR	3	4500 RS
INDIAN WC	2	2800 RS
